

PARKER PLEASED WITH RESULT IN STATE OF MAINE

Revision of Figures Shows Reduced Plurality.

Renomination of Peabody in Colorado, Is Conceded—Clark and Taggart Confer—Political News.

Portland, Me., Sept. 14.—Returns from the small towns in distant parts of the state and a careful revision of last night's figures place the Republican plurality in the state election at about 27,000. Returns from 450 cities, towns and plantations out of 552 give William T. Cobb (Rep.) 75,954, Cyrus W. Davis (Dem.) 50,017. The same places in 1900 gave Hill (Rep.) 72,541, Lord (Dem.) 39,714. The Republican gain over 1900 is now estimated at 5 per cent and the Democratic gain at 24 per cent.

Additional returns in the congressional districts have not altered the result, all four Republican congressmen being returned by pluralities ranging from 5,000 to 7,000.

Next year's senate will probably stand 27 Republicans and four Democrats against 29 Republicans and one Democrat in the last legislature. It is estimated that the house will be 121 Republicans and 30 Democrats. The last house stood 131 Republicans and 20 Democrats.

Will Visit New York.

Esopus, N. Y., Sept. 14.—For several days it has been rumored Judge Parker was planning a visit to New York to call on the members of the National committee and other managers of the campaign. It was said also that he might remain there and take a hand in the running of the campaign, for the purpose of bringing about more harmonious relations between the men at headquarters; but it is believed here that the candidate, instead of straightening out real or imaginary differences, has under consideration important plans of campaigning intended to change completely the working methods in some sections of the country. Judge Parker's trip to New York on Thursday will be the first visit of a political character since his nomination.

Results of the Maine election are gratifying to the judge and his political friends who visited Rosemont. The candidate has not discussed the election nor commented for publication on the returns, but those who have talked with him say he is greatly pleased at the largely increased Democratic vote, and feels that there was a sentiment displayed there which may be expected to develop throughout the country and show in more material form in doubtful states.

German Democratic Bureau.

New York, Sept. 14.—The German bureau recently established by the Democratic national committee, with Herman Ridder in charge, will begin active work today. It is the intention of the organization to work in all sections of the United States where there is a large German population. Large mass meetings will be held in New York, New Jersey, Connecticut, Indiana, Illinois and Wisconsin.

Convention Called Off.

Detroit, Mich., Sept. 14.—The committee in charge of the bolting primary, reform Republican convention, which was to have been held today at Grand Rapids, has called the convention off. Most of the leaders of the movement are throwing their influence to W. N. Ferris of Big Rapids, the Democratic candidate for governor.

Clark and Taggart Confer.

New York, Sept. 14.—Senator W. A. Clark of Montana was in conference with Chairman Taggart at headquarters. He told Mr. Taggart that the Montana voters would renominate Governor Toole and Governor Toole's reelection was assured. He also pledged the Montana electoral vote for Judge Parker.

Senator Fairbanks' Itinerary.

Chicago, Sept. 14.—Chairman Tawney of the speakers' bureau at Republican national headquarters has completed the itinerary of Senator Fairbanks' western trip as far as Portland, Ore. Senator Fairbanks will leave Chicago on the night of Sept. 23, arriving at Lacrosse, Wis., at 8 a. m. Sept. 24. His program of speeches will then be as follows: Sept. 24, Rushford, LaCrosse, Spring Valley, Austin, Albert Lea, Owatonna, Fairbault, St. Paul, Minn.; Sept. 25, Sunday, no speeches; Sept. 26, Glendive, Miles City, Forsythe, Billings, Mont.; Sept. 27, Big Timber, Livingston, Bozeman, Butte, Mont.; Sept. 28, Anaconda, Boulder, Helena, Mont.; Sept. 29, Missoula, Mont., Spokane, Wash.; Sept. 30, North Yakima, Ellensburg, Ronald, Tacoma, Wash.; Oct. 1, Portland, Ore., at night.

Colorado Republicans.

Denver, Colo., Sept. 14.—While the renomination of Governor James H. Peabody by the Republican state convention in this city is a foregone conclusion, surface indications point to a contest over the endorsement of the governor's action in connection with

the labor troubles. Delegates headed by State Senator S. V. Nevill, who is a candidate for the gubernatorial nomination, advocate a law and order plank, but disapprove any endorsement of the deportations of strikers from their homes that have taken place.

Satisfied With the Situation.

Chicago, Sept. 14.—Senator William B. Allison of Iowa, Thomas H. Carter of Montana and Colonel George Stone, Republican state committeeman of California, were among those who called on National Chairman Cortelyou. They gave Mr. Cortelyou reports on the political situation in various western states. Chairman Cortelyou left for Washington well satisfied with his canvass of the situation in the middle west and the west.

Senator Platt Speaks.

Hartford, Conn., Sept. 14.—In a vigorous defense of the Republican administration, United States Senator Orville H. Platt, as temporary chairman, awakened much enthusiasm at the opening of the Republican state convention, the delegates and spectators cheering repeatedly the name of Theodore Roosevelt. The indications are that Lieutenant Governor Henry Roberts will be nominated for governor on the first ballot.

YALE FULL BACK TWO YEARS AGO IS SENT TO JAIL

At Same Time His Wife is Indicted.

Defendant and Friends Expected Only a Fine, But Court Was Firm In Its Decision.

Reading, Pa., Sept. 14.—Henry S. Batchelder once a famous football player, pleaded guilty here to a gambling charge and was sentenced to six months in the Berks county jail and fined \$100. Powerful friends and his parents interceded for the ex-Yale athlete, but to no avail.

As Batchelder stood at the bar awaiting sentence, the grand jury returned a true bill against his wife on the charge of embezzling \$2,600 from Berg brothers, in whose house she was cashier, before her marriage.

Harry Batchelder, two seasons ago, was the champion fullback of the Yale 'Varsity team. He was studying law at the time. In the Yale-Princeton game, Miss Mary Cassidy, one of Reading's many pretty girls, was one of the spectators and one of those who cast her brightest smiles when Batchelder helped his team to victory. It was their first meeting. Batchelder followed her to Reading and they did much of their courting in the cashier's office in Berg brothers' store.

Batchelder gave up a promising career at the bar, decided to live here and took the girl to Atlantic City where they were married. She was arrested a week later. Being a stranger to hard work he finally drifted into the cigar store business. It was alleged that Batchelder allowed card playing for money and cigars in the rear rooms. To this charge Batchelder pleaded guilty, expecting to get off with a fine.

Judge Emmert, in passing sentence, said that it was a case of unmitigated gambling.

Batchelder is a handsome fellow and athletic in appearance, over 6 feet tall, weighing 200 pounds, and with muscles like iron. His wife is a most attractive woman, a brunette.

Batchelder's parents offered to place him in college again if he was only fined, but this was not accepted.

MONTANA

Vote of the State Is Sure For Judge Parker, Says U. S. Senator Clark.

New York, Sept. 14.—Senator W. A. Clark of Montana, in conference with Chairman Taggart yesterday said that the Democrats of the state would renominate Governor Toole at their convention today and that Governor Toole's reelection was assured. Senator Clark also pledged the Montana electoral votes for Judge Parker.

The Congressman from that state will also be a Democrat.

SUSPECT

Arrested and a Colored Porter Is Pos- itive He Is the Man Who Is Wanted.

Chicago, Sept. 14.—Joseph Briggs, who was arrested on suspicion of being connected with the murder of Harold Peterson, the tobacco dealer, who was killed in his store by robbers, has been positively identified as the man who did the shooting. William Portee, the colored porter, who is lying in the hospital with a bullet through his lungs, was confronted with Briggs, and he swore that he saw him shoot Peterson down. Briggs has been in the hands of the police before, but never for any serious offense.

CHINESE WORK ON THE JAPANESE ENTRENCHMENTS

Mikado's Losses in Battle Underestimated.

Reinforcement For Oyama Hurried to Front—Russian Public Panic— Day's War News.

London, Sept. 14.—The Daily Mail's correspondent at Chetov reports that 300,000 Chinese coolies are engaged upon Japanese entrenchments between Dalny and Port Arthur. The Morning Post's correspondent at Shanghai hears that the calling out of a portion of the Japanese territorial army is imminent. From Tokyo the correspondent of the Standard telegraphs that the Chinese government is becoming uneasy over the fate of Manchuria. An unconfirmed report, he says, is current that Wu Ting Fang, the Chinese assistant foreign minister, will leave Peking shortly on a special mission to Europe and America on the Manchurian question.

Bennet Burleigh, cabling from Tientsin to the Daily Telegraph, still insists that the Japanese casualties in the battle of Liao Yang were nearer 30,000 than 17,000. Mr. Burleigh's dispatch says: "The Japanese, who are bad horsemasters, have many thousands of animals foundered, terribly galled and sore. Reinforcements of both men and horses, however, are being hastened northward. The Mikado's troops hold secretly but strongly by all the districts to the north along the Liao river up to Simintin. I believe the Manchus are organizing for some important operations north of Mukden. Oyama was overheard to say at Liao Yang that, stubborn as Kuropatkin is, he must now be in a desperate condition and aware that his game will not do. Whatever corps Russia may mobilize, Japan can duplicate them with better troops, put into the field more quickly."

KUROPATKIN

Silent and the Lack of News From Him Is a Cause of Irritation In Russia.

St. Petersburg, Sept. 14.—There has been no renewal of fighting on a large scale between the Russian and Japanese armies in the far east. The people here are harassed by rumors of impending disaster to General Kuropatkin, which find ready credence because of the lack of official information from the general headquarters at Mukden, and for the moment the popularity of the head of the Russian armies in the field is in eclipse.

There is no current news to record, while if General Kuropatkin has transmitted any full account of the recent great battle, it has not been allowed to circulate. The persistent silence is doing more than anything else to discredit the Russian commander-in-chief in the eyes of the public, with whom he has heretofore been an almost deified hero.

Reports that the Chinese are making preparations to occupy the conquered territory are creating some uneasiness, for China has been all along an uncertain quantity, and any development of a complication might be expected. No one knows precisely what pressure, racial or political, Japan may be able to bring to bear upon the great silent empire. The logical belief always has been that China would endeavor to the utmost to refrain from taking sides in the political conflict in order that she might be in a position to make the best terms possible with the ultimate victor; but it is realized that a continued Japanese advance into the heart of Manchuria might exert a powerful influence upon both the Chinese peasantry and the nearby, ill-controlled regular troops, which the weak government at Peking might find it difficult to curb, thereby precipitating serious complications upon the scene of actual hostilities.

Baltic Fleet Halted.

Berlin, Sept. 14.—The Tageblatt's St. Petersburg correspondent telegraphs that the departure of the Baltic squadron has at the last moment been deferred for several days, apparently to await news from the far east. The fleet will remain for the present at Revel.

Submarines For Japan.

Boston, Sept. 14.—It is reported that the Japanese government is having rushed to completion at the Fore River iron works, Quincy, Mass., a fleet of five submarine torpedo boats. The boats are identical in design and cost \$175,000 each.

No Signs of an Advance.

Mukden, Sept. 14.—The Japanese army is within 21 miles of Mukden. There is no indication of their advance.

Japs Promise Reinforcements.

London, Sept. 14.—The Rome correspondent of the Exchange Telegraph company today wires that a telegram received there from Tokyo states that

the government in reply to a request by Field Marshal Oyama, had promised to send him reinforcement of 100,000 men and 225 guns by the first of October.

St. Petersburg, Sept. 14.—(Bulletin)—General Kuropatkin reports, under today's date, that the Russian rear guard of his army is at Shakhe and adds: "Our main force are concentrating at Mukden. The main Japanese force is south of Yalu (probably Ten Tai) while additional forces of 3,000 of the Japanese army are at Bentshju. Our casualties about Liao Yang from August 28 to September 5 were 3,005 killed and 12,000 wounded."

"Continued inactivity of the Japanese has given General Kuropatkin the chance he wished to fortify Mukden which he now apparently intends to hold. While the situation at Mukden is thus improving, the state of affairs at Port Arthur is becoming worse. The army there is in a critical position, with no meat and flour, their main food supply. The ammunition supply is insufficient for a long resistance, but the defenders still hope to resist until they are relieved."

St. Petersburg, Sept. 14.—Two belated reports from General Stoessel in command at Port Arthur, giving accounts of the Japanese reverses at Port Arthur on August 27 and September 1, were received today. The dispatches make mention of the terrific loss of life by the Japanese resulting from the explosion of submarine mines. Both attacks were repulsed by the Russians. A report dated September 2, says: "Yesterday night the enemy attacked the Visokaya and Dzhinnaya mountains and neighboring fortifications. Leading files of the enemy were discovered in good time, our batteries opening fire. Fortunately the Japanese columns following the leading files, encountering automatic mines and many of the enemy were blown to bits."

WHEAT

And Corn Show Slight Re- action on Board of Trade.

Chicago, Sept. 14.—Profit taking in all the pits not only checked the bull movement in wheat and corn on the board of trade this morning, but caused a reaction. Killing frosts are shown in the official weather reports at North Platte, Neb., and Valentine, Neb., and Rapid City, N. D. Light frosts also are reported in some portions of Kansas and South Dakota. New September wheat closed last night at 113 1/4 and this morning sold down to 112 1/4. December from \$1.15 1/4 to \$1.11 3/4, and May from \$1.17 5/8 to \$1.16 3/8.

GERMAN AMERICANS INDORSE JUDGE PARKER

Declare That Kaiser Is Building Great Navy to Attack Eng- land.

New York, Sept. 14.—The German-American Democracy of Kings county came out strongly for Parker and Davis. The German-American Democracy, which is independent, took an active part in the fusion campaign and has an enrollment of nearly 20,000.

The executive committee met at the club house, 42nd and Eastwick avenues, yesterday and unanimously adopted resolutions recognizing as the highest aim of the National campaign the restoration to the people of the right of self government, "illegally usurped through the capitalistic tendencies of the Republican party." The resolutions pledge the German Democracy of Kings county to use its best endeavors for the maintenance of principles of Democratic faith.

The Democracy "favors the election of a President who shall set his face sternly against executive usurpation of legislative and judicial functions." The resolutions conclude by endorsing the nomination of Parker and Davis.

LA FOLLETTE IS WINNER

State Central Committee Decides His Is Regular Party In Wisconsin.

Madison, Wis., Sept. 14.—The State Central committee has decided that the La Follette party is and was the regular party of the State and that the nomination of the La Follette convention are the only ones to go on the official ballot as nominees of the Republican ticket.

The stalwart members were not present, but were represented by counsel. The attorney general objected to action on the ground that the committee was dissolved and had been out of existence since the State convention. The La Follette witnesses were heard after which the decision was rendered. The case will be taken to the supreme court. The meeting of the committee was called by the secretary of State who is a La Follette follower.

LENA'S BOILERS IN BAD CONDITION AND DANGEROUS

Vessel Must Dismantle or Leave Port.

Difference of Opinion as to the Time It Will Require to Make the Repairs.

San Francisco, Sept. 14.—Elaborate precautions are being taken by Admiral Goodrich to prevent violation of the neutrality laws by either members of the Russian transport Lena's crew or the Japanese residents of the city. The great-old steamship, has anchored one hundred yards astern of the cruiser and the destroyer Paul Jones is only a short distance off the bows. Launches from the Bennington and Boston patrolled around the Russian last night and today. All the boats going to and from the Lena are stopped and thoroughly searched, even friends of the officers are not allowed aboard without undergoing a search. There are fears that the Japanese may try to blow up the Lena.

Oyster Bay, N. Y., Sept. 14.—Russia's auxiliary cruiser Lena, which put into the port of San Francisco last Sunday, presumably from Vladivostok, either will have to leave that port within a brief time prescribed by this government or will have to dismantle. That in brief, it can be stated authoritatively, is the decision of the government.

All official reports relating to the arrival of the auxiliary cruiser at San Francisco have been transmitted to President Roosevelt, and he is thoroughly cognizant of the facts thus far developed. The reports indicate that the ship is not seaworthy. Her boilers are in such condition as to render it dangerous for her to proceed farther without repairs. Reports received so far indicate that the boilers are in such condition as would preclude the possibility of making the necessary repairs at sea.

Differences of opinion have arisen as to the length of time it will take to make the needed repairs. The commander of the Lena is quoted in one report as expressing the opinion that repairs to the vessel, including those to the boilers, would occupy several months, perhaps seven or eight months.

In order to determine definitely just what repairs may be necessary to place the ship in seaworthy condition the chief engineer of the American Pacific squadron and the chief inspector at San Francisco of the United States steamboat inspection service have been ordered to make a thorough examination of the Lena and as experts to make a written report of their examination to the authorities. On this report will be based the action of the government. Pending its receipt the vessel will remain at San Francisco.

If, in the judgment of these experts, the vessel can be made seaworthy in 24 hours, orders will be issued to her commander to leave port at the expiration of that period. On the contrary, if the report shows that the ship is in actual need of extensive repairs and overhauling, and the making of the repairs would occupy any considerable time, the captain will be directed to dismantle the vessel and she will remain in that condition until the termination of the Russian-Japanese war.

BRITISH GET EXCITED

Independent Organization of Nearly 20,000 Is For Democratic Ticket.

London, Sept. 14.—Britain's Conservative alarmists are in a state of fresh eruption on account of what they describe as the provocative, militant tone of the Kaiser's speech to the officers of the German fleet, at the conclusion of the maneuvers at the mouth of the Elbe.

The Kaiser once more calls himself "Supreme War Lord" and adds: "I hail with glad certainty, whatever tracks the navy may be required to essay, to prove itself a good and trust-

worthy weapon in my hand." The outcry of the anti-German Britons may be summarized thus:

"Notice has again been served on us, that the German navy is steadily gaining in strength. The sole object of that navy is to attack Britain. The Kaiser is not only building a fleet aimed at Britain, but is striving to ensnare a continental coalition against us."

"Our government must constantly, thoroughly, and with increasing vigilance, prepare and beat this enemy across the North sea."

Deep-rooted distrust of Germany savors a large section of influential British politicians, and is one of the most remarkable facts of contemporaneous European politics. To this day, for instance, the Times has not deigned to notice the Anglo-German arbitration treaty, and other powerful journals like the Spectator have accorded it only a few captious and crabbed sentences.

IN CHEAP TRUNK THROWN IN LAKE BOY IS FOUND

Young Woman Murdered in Mysterious Way.

A Cleveland Man Made a Horrible Dis- covery on the Lake Front This Morning.

Cleveland, O., Sept. 14.—In a cheap wooden trunk, the cover bound down with ropes George Zimmerman today found the badly decomposed body of a woman evidently from 30 to 35 years of age.

The top of her head had been crushed in, probably with some blunt weapon. This must have been a fatal blow. The body had then been jammed into the trunk.

Letters addressed to Margaret Lyons, 27 St. Clair street, Cleveland, several books bearing the same name on the fly leaf photographs, and a few trinkets were scattered over the remains.

The trunk had floated under the southeast corner of the dock itself, at least hidden from view. Zimmerman fastened a rope around it and pulled it out into the open. He cut the ropes and the top flew back. He then took out the girl and found the body.

It is the opinion of Captain Motley that the body has been in the water from three to four weeks. So badly decomposed was it that the features are barely distinguishable. The woman was dressed only in a cheap white wrapper. Her stockings are black and there were no shoes on her feet.

There is every evidence that the woman had been murdered, her body hurriedly jammed into the trunk, hauled to the lake and thrown in. Just why the letters, the photographs, and books were there is strange. That fact would indicate however that the woman had been killed in a terrible fit of anger, that the murderer, fearfully anxious to hide his crime as soon as possible had not taken time even to ascertain what was in the trunk.

Gertrude Lyon, 472 St. Clair street, today identified some of the articles in the trunk as belonging to her sister, Margaret, who had not been seen or heard from for weeks, but this afternoon the mystery was removed. The trunk and trinkets belong to a colored woman named Margaret Lyon, who was Friday found by the woman in the trunk was a white woman.

Monday the body of an unknown man was found where Margaret Lyon was found. His head had been crushed, his pockets rifled and his body then thrown into the water.

MOTHER PLEADS FOR RETURN OF HER LITTLE SON

Pathetic Scene in Court at Chicago.

Child Who Had Been Away From Her For Seven Years Did Not Want to Return.

Chicago, Sept. 14.—"Won't you come home with me, your mother, for just two weeks? Just two weeks after seven long years?"

A woman knelt before her 14-year-old son in the court house corridor and tried to touch the boy's heart. A curious crowd looked on and the boy flushed with embarrassment but he never glanced at the kneeling woman who hugged him to her. Then he turned without a word and walked away with another woman whom the court had made his guardian.

The scene marked the close of Mrs. Sadie Smith's struggle to retain her three children. Taken from her in 1897 and placed in a children's home they were sought by her for seven years. She learned recently that two of the children were in the keeping of Miss Nellie McMillan, who owns a large farm near Sparta, Ill. They were Ethel and William, now 12 and 14 years old. The youngest child, Harry, was given to a family in Elgin, but recently returned to Mrs. Smith.

When Miss McMillan refused to surrender the boy and girl Mrs. Smith began proceedings. The case came before Judge Kavanagh for decision. First the mother told her story. Then Miss McMillan testified.

Judge Kavanagh then took the boy and girl into his private chambers and talked to them. Then they were placed on the stand and said they wished to remain with their guardian.

"Miss McMillan has cared for the children as her own for seven years," the Judge said in making his decision, "and it must be for the best of the children not to have a change."

Then began the mother's struggle to win her boy back to her. "Come with me just weeks and see how you like it," she cried, her arms about his neck.

"Just for two weeks. If you don't like it you can come back again, but come with me for just two weeks!"

The boy gazed shame-faced at the gathering crowd but answered nothing. Miss McMillan watched in silence. Then the attorneys sought to separate them, but Mrs. Smith turned upon them.

"Go back to your own children," she cried. "Would you want your children away from you after seven long years?"

Then she turned to the onlookers and pointing to each man in the group she asked them pleadingly: "What would you do? Wouldn't you go back to your mother? Wouldn't you? and you? and you? Isn't there one man here who is brave enough to say he would go back to his mother?"

No one answered. Then it was the boy slipped from his mother's arms and went away with his guardian. The mother was borne away in a fainting condition.

HOT SHOT FOR ROOSEVELT

Senator Towne Scores Him Before Commercial Travelers' League.

New York, Sept. 14.—More than 600 persons crowded into 597 Broadway yesterday to listen to former Senator Charles A. Towne, who made an address before the Commercial Travelers' league. Most of the address was devoted to comparison between Judge Parker and President Roosevelt. The latter was referred to as a "despot," a "would-be emperor," a military enthusiast run mad," etc. These remarks and the following elicited storms of cheers.

"I have seen this so-called President's personal habit of interviewing United States senators march in the same way that a schoolmaster talks to a lot of whipped school boys who had spent an unpleasant half hour on the dunce stool."

APPEARING OLD

Acts as a Bar to Profitable Employment.

You cannot afford to grow old. In these days of strenuous competition it is necessary to maintain, as long as possible, one's youthful appearance.

It is impossible to do this without retaining a luxurious growth of hair. The presence of Dandruff indicates the presence of a burrowing germ which lives and thrives on the roots of the hair until it causes total baldness.

Neubre's Herpicide is the only known destroyer of this pest, and it is as effective as it is delightful to use.

Herpicide makes an elegant hair dressing as well as Dandruff cure.

Accept no substitute—there is none. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Taylor's Horse Radish Cream, 8-12-

JAMES CONNELL KILLED

And Ed Lemmar, Sam Taylor and Leonard Lohrmann Are Locked Up, Charged With Causing His Death—Result of a Brawl.

As a result of a quarrel over a trivial matter, James Connell, aged 25, a soldier who lived with his wife and little child at 107 Jefferson street, is dead, having been struck on the right temple with a club in the hands of it is alleged, of Ed Lemmar, a young man who lived at the Wehrle foundry.

Connell went home at 12-45 Wednesday morning with his face bleeding profusely from a wound near the right eye that did not appear to be at all serious. He had his wife bathe his face, and she died this at frequent intervals during the night. He was conscious and directed his wife in her ministrations. Toward morning the young man became quiet and it was thought he had fallen asleep, but it was the sleep that knows no waking in this world.

About 5-45 Wednesday morning young Connell's father, William Connell, business agent of the team drivers' union, who lives also at 107 Jefferson street, went to the bed room to awaken James to go to work at Central City, where he is employed. The son was limp and appeared drowsy, and the father concluded to allow him to sleep till noon, thinking the drowsiness was the effect of drinking.

The elder Connell left the house and returned about 9-30, when he asked his wife if "Jimmy was up yet." She replied that he was not, and went to his room where he was found in bed, cold in death.

The young man's death as far as his family was concerned was shrouded in deep mystery, but Coroner C. F. Legge, who was summoned, aided by an Advocate reporter, finally obtained a clue and worked the story out.

Connell is a chum of Sam Taylor, who lives in the rear of August Schaller's restaurant in West Newark, who is also a soldier employed at Central City. On Tuesday night they were together, both drinking considerable, finally going to the saloon of William McKinley, 60 Wilson street. Here they were met by Leonard Lohrmann and Ed Lemmar, and an argument started over a certain molder's tool.

The proprietor, Mr. McKinley, stated that neither Taylor nor Connell took a drink but as it was nearing midnight he finally ordered the four out and locked the place. On the outside the quarrel was renewed with even more bitterness and Taylor threw a glass at Lohrmann knocking him down. Taylor had brought the glass out of the saloon. A general fight began, Connell went into the alley nearby and returning began throwing bricks at Lemmar, who attempted to get out of his way. Mr. McKinley says that Lemmar's actions were those of a peace maker, and he in every way attempted to quiet Connell and Taylor. The former, McKinley says followed Lemmar up and finally Lemmar picked up a piece of scumming about four feet long which he tossed at Connell. The scumming struck Connell and he fell to the pavement. Lemmar went to him and bending over his prostrate form said: "I hated to do this, Jimmy, but I had to defend myself."

Connell finally got up and started down the alley. Taylor came back and again struck Lohrmann with his fist, then started after Connell. This is all McKinley saw of the trouble and the above is his version of the affair.

Coroner Legge is of opinion that death was caused by a blood clot forming on the brain, but an autopsy will be held to determine definitely the cause of death.

Wednesday morning Captain Robert Bell and Officer William Howard went to the home of Lemmar on Sixth street and placed him under arrest. Chief Sheridan and Officer George McClure went to the Wehrle foundry where Lohrmann was working and he was also arrested.

Chief Sheridan went to Central City to arrest Sam Taylor, and the latter made an attempt to escape when he saw the officers. Sheridan finally located him behind some box cars and he was brought to Newark. Wednesday afternoon, Officer George McClure filed an affidavit charging Lemmar, Lohrmann and Taylor with having unlawfully killed James Connell, which charge is manslaughter. The hearing will be held before Acting Mayor Rosell Wednesday evening at 7 o'clock. The three men are locked up in the county jail.

There were no new developments in the case of Frank Graef, who is supposed to have left the city with Blanche Harris, aged 15.

Short-Lived Special Session. Providence, R. I., Sept. 14.—The effort of Governor Garvin to obtain three amendments to the state constitution—the first to provide for constitutional initiative, the second a moderate veto power for the governor, and the third permitting registry voters to vote for city councilmen—was frustrated by the failure of the general assembly to act on any of them, although there was a spirited debate in both branches. Both branches, however, passed a resolution condemning the action of the governor in calling the extra session, and calling for an adjournment until Nov. 15.

A MANILA MILK VENDER.

The crusade against adulterated milk is of long standing in the United States, and now it seems to have penetrated to the Philippines. In Manila the quality of the milk supplied by the street vendors is so poor that there is agitation for a commission to be charged with the inspection of all of the lacteal fluid offered for sale in the capital of Luzon. The method of transporting would appear to offer every opportunity to mix, bes.

FAST RUN

Made on Newark and Zanesville Electric Line, By Motor No. 51, Tuesday Evening.

A remarkably fast run was made on the Columbus, Newark & Zanesville interurban on Tuesday, on run No. 61 by car No. 51, which was in charge of Conductor A. G. Hessin, and Motor-man Charles Rector. The car left Zanesville Tuesday evening at 6:40 o'clock, arriving at Holbine's at 6:54, and there awaited No. 25 until 7:08, just 14 minutes. As the car was leaving Holbine's the Baltimore & Ohio passenger train No. 15 was right opposite and on the way to Newark. Car No. 51 was delayed three minutes at Connell's by No. 28 of the same line. The car ran into Newark with the fast passenger train, side by side. The B. & O. train made four stops from Zanesville, and the C. N. & Z. car five stops. Counting the delays at points on the run car 51 made the run of 27 miles in 34 minutes, eclipsing all former records for speed by an ordinary car.

SOMETHING ABOUT CHAIRS

Antique Chairs—Chairs For Special Uses—Souvenirs of Travel.

"That chair," said an old lady, "takes me back to the days of my childhood. It is exactly like one that my grandfather had, and I can see just how he looked and hear again the tones of his voice." The magic of an inanimate object when linked with some distant association was evidenced.

Buying a chair nowadays is an easier matter than in the days of our colonists, when only the most well to do were supplied with this article of furniture brought from across the seas.

The lover of antique furniture will make extraordinary searches for the old chairs, knowing that their wood was slowly and carefully seasoned, the workmanship accurate and durable and the patterns plainer and often better than those of modern times.

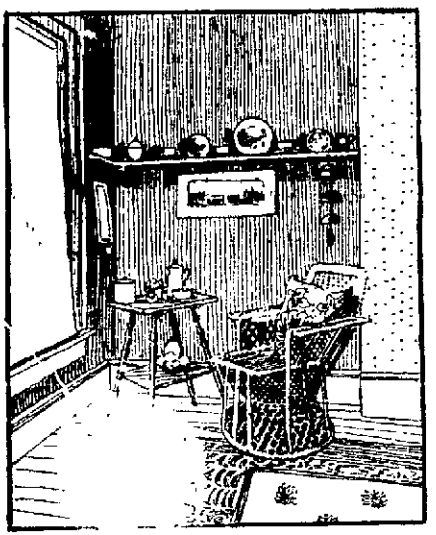

Chairs are the first necessity in fitting up a house. In deciding what must be bought, what would be desirable to have and what could be done without the chairs will take a prominent position. A great variety of chairs and every degree of price awaits the purchaser. If a good selection is made the room begins to take on an atmosphere of interest. If a commonplace chair is installed the opportunity for making an attractive interior is thrown away.

In the tea corner shown in the illustration an inexpensive little bamboo table has the usual outfit of teapot, cracker jar, cups and saucers. A narrow shelf fastened against the wall holds a supply of extra china. The chair used while pouring tea is an East Indian rattan in bourgeois shape and, with its bright colored cushion at the back, contributes a large share of the picturesque element in the room.

Another chair not illustrated is a lounging or divan chair, something like a deck or steamer chair, but more graceful in design than either, and altogether comfortable when supplemented by a few cushions. The ideal position for such a resting place is on piazzas or lawns where a hammock is unavailable.

In searching for souvenirs of travel the home lover sees in the chairs of different nations an entertaining furnishing for her own abiding place, a Flemish chair in black oak for the library, for instance, a Savonaria chair for the hallway, wooden benches from Tyrol for the den, and old English chairs for the dining room and parlor.

Such a collection was planned out by an American who started on a trip

A TEA CORNER AND ITS CHAIR.

through Europe one summer. The idea expanded as the many products of the countries opened unrealized opportunities. The number soon grew the original modest limit, and when they reached this side the first cost was found to be largely increased by the duties.

Historic wood may be made into a chair and thus preserved in a useful as well as an interesting way.

When that old tree was taken down which Longfellow had celebrated in the poem beginning

Under a spreading chestnut tree
The village smithy stands,
a happy thought was suggested to the children of Cambridge, who gladly followed it up. This was to have a beautiful chair designed for Longfellow and made from the wood of the old tree.

Some old timber found in Stratford, England, was not long ago made into chairs and called after Shakespeare, and a number of these interesting seats have found their way to this country—Design.

and the results have been very gratifying indeed. We would prefer to have every person make a free test before buying it in the regular way at a drug store. The price is 75 cents for the usual 1/2 size bottle, and as it is a concentrated, non-alcoholic remedy, excellent results are produced with the one bottle alone, as the above letters amply prove. Call at the following address today for free test bottle.

Have you had a FREE Test Bottle of Drake's Palmetto Wine?

WE HAVE been watching for years the grand, curative results obtained by people throughout the world by the use of Drake's Palmetto Wine. From the experience we have had with it we know what it will do for sufferers from catarrh of the mucous membranes, from kidney trouble, stomach disorders, bladder and urinary disease, thin blood, diseases of women, nervous disorders and weaknesses, constipation and many other diseases of the vital organs. But the main point with us is

HOW CAN WE GET YOU TO KNOW WHAT IT WILL DO FOR YOU?

We want to interest you in Drake's Palmetto Wine in an open, honest way because we feel positive that we have a remedy of genuine worth for the cure of certain diseases—but even such sincerity, of course, will not necessarily prove what it will do for you. We are not trying to conceal anything from you. The title itself tells you what the chief ingredient of Drake's Palmetto Wine is, the essence of the glorious palmetto berry—but that does not prove what it will do for you.

We might produce argument upon argument that would convince you as to the merits of Drake's Palmetto Wine and why it is better than other remedies for the same purpose, arguments that would be logical, sound and honest—but still it would not prove what it will do for you. We could send you original letters from over 10,000 people singing the praises of Drake's Palmetto Wine—and even that would not prove what it will do for you. We could present testimonial letters galore showing that well-known residents say they were cured of every symptom and disease that we claim to cure with Drake's Palmetto Wine—and still that would not prove what it will do for you.

Then what will prove it?

WE WILL GIVE A TEST BOTTLE FREE TO ANYONE—THAT WILL PROVE.

Yes, that is the best and most absolute proof—for you to let us give you a trial bottle free of charge. You are sick and looking for a cure. We claim to have the remedy that will cure you. The thing for you to do is to call at the address given below and they will cheerfully hand you a test bottle of Drake's Palmetto Wine, free of charge and include booklets, etc., on the subject, also free.

Drake's Palmetto Wine is not a "drugging process"—it is very pleasant to the taste and one dose a day is all you take, but so curative is this wonderful palmetto medicine that the one dose daily does the work thoroughly—brightens your eyes, clears out the liver, stomach and bowels, strengthens the nerves, purifies and enriches the blood, invigorates the muscles, tones the kidneys, bladder and mucous membranes and makes you once again a rejuvenated man or woman.

Let the free test bottle prove all this to you. Also, take a glance at the appended letters from cured people, just a few.

ALL WE ASK IS THAT YOU CALL FOR A AND YOU WILL SOON BE CURED. FREE TEST BOTTLE. DO THAT TODAY

THREE JURORS CURED.

Of Cholera Morbus With One Small Bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Mr. G. W. Fowler, of Hightower, Ala., relates an experience he had while serving on a petit jury in a murder case at Edwardsville, county seat of Cleburne county, Alabama. He said: "While there I ate some fresh meat and some soured meat and it gave me cholera morbus in a very severe form. I was never more sick in my life and sent to the drug store for a certain cholera mixture, but the druggist sent me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy instead, saying that he had what I sent for, but that this medicine was so much better he would rather send it to me in the fix I was in. I took one dose of it and was better in five minutes. The second dose cured me entirely. Two fellow jurors were afflicted in the same manner and one twenty-five cent bottle cured the three of us." Newark Township.
Assessor.....John D. Price

The Republican majority in Maine turns out to be several thousand less than the managers of that party claimed at first. Instead of being 33,000 as the Republicans claimed on Tuesday, the majority has dwindled down to 27,000. This makes a Democratic gain of 7,000 over 1900 and 21,000 over 1896.

All the cabinet officers have left Washington and the work of the department has to be carried on without them. They are out over the country earning their salaries making speeches for Roosevelt. When a President can run his campaign so largely at the expense of the Government he sees no need of making promises not to be a candidate for a third term.

Congressman Littauer of New York, he of the notorious glove scandal fame, recently paid a visit to Roosevelt at Oyster Bay. The incident was the subject of much criticism by leading independent newspapers, but Mr. Roosevelt declared that Littauer

"was his close friend and political advisor." Consenting with the toughest politicians of the machine type to gain partisan ends is just to Roosevelt's liking, and he doesn't care who knows it.

Do They Pay for Protection?
The New York American of recent date, published an astonishing story concerning the contributions of the trust to the campaign fund of the Republican party. That newspaper asserted, upon what it claimed was unquestionable Republican authority, that the Standard Oil company had donated \$1,000,000 and J. Pierpont Morgan had given \$250,000. It also announced that the members of the Union League club of New York had contributed \$100,000 to the fund. In regard to these trust contributions alleged to have been made, the American quotes its informant as saying:

"Morgan's enmity to Roosevelt ended with the appointment of his banking firm as fiscal agent for the purchase of the \$40,000,000 Panama Canal. The \$750,000 pledged by the Steel and Iron Trust was not difficult to exact after the Chicago convention, with the approval of the President, promised no tinkering with the tariff 'except by its friends.'"

It is a queer reprimand that Col. John L. Clem, the chief quartermaster of the United States army in the division of the Philippines, has received. He turned back into the treasury an "unexpended balance" of \$423,000 and his superior officer has censured him on the ground that Col. Clem acted without authority. As a financier, viewing him from the humble taxpayer's standpoint, Col. Clem is evidently a success, and the people all vote for him regardless of party. But, of course, if he acted without authority the superior officer, who probably never had an unexpended balance to turn back, has a case.—Middletown (N.J.) Signal.
If Col. Clem had wasted, or corruptly squandered the \$423,000 his course would have been approved and commended by his superior officers doubtless the superior officer's grievance is that he did not get a living out of the unexpended balance himself.

Treasurer's Bond.

In Saturday's issue of the Daily Advocate and in the semi-weekly edition of Tuesday reference was made to County Treasurer W. N. Fulton's bond and in the editorial the term "trust company bond" was used inadvisedly. "Surety company bond" should have been the term used.

As a matter of fact, trust companies do not provide bonds for officials or individuals in Ohio but Surety Bonding companies do. A trust company in acting as administrator or executor gives a bond as does a private individual, but in no case in this state does a trust company furnish bond for a public official.

This statement has been made because there has been a confusion of the terms "trust" and "surety."

The city of Newark has a Trust company, but its business consists of banking, loaning money on approved security and in administering estates, acting as agent for property, making collections and the like. It furnishes no bonds for officials and makes no exorbitant charges for its services in any capacity. The Newark Trust company while one of the newer institutions of the city, is a tower of strength. It is well managed by some of the best known and most intelligent men of the city and it is a pleasure to state that its business has been growing rapidly from the day it began business about one year ago.

DEMOCRATS AND FARMERS

(Pittsburg Post.)
While President Roosevelt has been vainly endeavoring to convince the country that all the good things which it enjoys have been due to Republican legislation, it may not be amiss to call the attention of the millions of farmers who constitute such an important portion of our population to some legislation in their behalf which they owe to a Democratic Congress and President. During Cleveland's first administration the law creating the department of agriculture was enacted by a Democratic Congress and approved by a Democratic President. Before the department was created there had been a bureau of agriculture, which, under Republican auspices had deteriorated into but a vehicle for the distribution of garden seeds. When the Democrats came into power Norman J. Colman, of St. Louis, a practical agriculturist, was appointed to the bureau, and under his management nearly all the important improvements that now prevail were inaugurated. Subsequently when the department was created he was made the first secretary of agriculture. The Democratic Congress of 1886 passed a law creating agricultural experiment stations, and Mr. Colman at once interested the agricultural colleges in carrying them on to the great advantage of the farmers.

All the work was mapped out under a Democratic administration that has led to the improvement in the breeding and feeding of stock, the destruction of poisonous weeds and protection of plant life from insects. But besides creating the agricultural department and experimental stations a Democratic Congress passed the first appropriation for a rural free delivery service to the farmers in 1884, though it was not until the fiscal years 1896-7 that the first routes were established. In that year Democratic Postmaster General Wilson ordered routes established, and from that time on the growth of the service has gone on apace. The Democrats always favor it.

In a letter from Postmaster General Payne to Congressman Livingston, of Georgia, which included in a speech of Charles H. Thomas, of North Carolina, and which appears in the "Congressional Record" of the first session of the Fifty-eighth Congress, he acknowledges that Postmaster General Wilson ordered the establishment of the first 84 rural free delivery routes and this is very important, as the Republicans have been claiming credit for the inception and establishment of free delivery service for the farmers. The Republicans have also claimed they have created the department of agriculture but the records

ZIEGLER DEAD

AS RESULT OF HIS INJURIES AT REYNOLDSBURG.

Deceased Was a Journeyman Saddler, Who Traveled From Farm to Farm, Doing Odd Jobs.

Al Ziegler, who was struck by a Buckeye Lake interurban car near Reynoldsburg Monday night, died at Grant hospital in Columbus Tuesday. His skull and jaw were fractured. Mr. Ziegler, who was about 50 years old, was a journeyman saddler.

For some time past he has been going from farm to farm in the surrounding country and doing odd jobs of harness mending. He had been in Reynoldsburg all day Monday and being without money he had been put off of one car because he could not pay his fare.

Wishing to leave Reynoldsburg he walked up the track some distance and facing an approaching car refused to move even after the motorman had blown the whistle several times. The car was moving rapidly and was almost upon him when he endeavored to jump out of the way. He was struck by the handle on the forward end of the car and knocked several feet from the track.

All who pay their subscription in advance will be entitled to make estimates on the Licking county vote. \$500 in prizes. See announcement in another column.

The Stoddard Lectures

Letter No. Two

Mr. J. M. Ickes, postmaster, United States Postoffice, Newark, State of Ohio, September 9th 1904

To whom it may concern.

I am pleased to state that the Stoddard Lectures have been a source of ever increasing pleasure and profit in our home. They are unsurpassed for entertaining and instructive reading, and Stoddard's style is so fresh and terse and his descriptions are so vivid that one never tires of them.

My daughter who is now in Europe has found them invaluable, because of their accuracy, and they have admirably prepared her for her trip, which is verified by her own descriptions and picture postal cards.

I know of no work that will enable one to get such a knowledge of the Old World without actual travel. It should be in the hands of every person who desires a broad knowledge of the world in which we live.

Yours respectfully,

J. M. ICKES.

It is stated on good authority that this year over Ten Thousand volumes of The Stoddard Lectures were taken abroad by tourists and always with the greatest satisfaction for Stoddard tells one just what to see in each country and how to best see it. But to the great mass of stay-at-homes it comes with its wealth of fact and illustrations, all told in richest language and we can thus sit at home and travel all over the world for less than a steerage passage to Europe. It is no wonder that The Stoddard Lectures are growing more popular each year and that the sales have now run over 100,000 copies.

A WOMAN OF BATTLE

[Copyright, 1934, by T. C. McClure.]
In the old days, before the Pacific roads and before the power of the red man was broken, none of us troopers of the Fourth cavalry, under command of a sergeant, were ordered out to escort the colonel's wife from Fort Hill to Lawrenceburg, that she might take the stage there for a visit to her home in the east. There was a truce just then between white and red, though liable to be broken by the latter without notice and at any moment.

During the long day's ride, the lady being in an ambulance, we knew that we were being followed by Indians, but they did not seek to overhurl us. At about sundown we went into camp on a wooded hill, with the ground pretty thickly strewn with boulders of all sizes. We got the horses and mules up there, but the vehicle was left down on the plain. It was a cone shaped hill about half a dozen feet high, but it commanded the others. It was covered with pines and cedars of small growth, and there was a sphaloid spring right on the crest.

Darkness found us occupying a circle about forty feet across, with stones and boulders and logs for shelter. We felt that we were safe from attack that night, but what would happen on the morrow was a matter for grave consideration. It was more than likely that a couple of hundred Indians would be brought up and take positions during the night.

None of us except the woman slept an hour all night long. We used levers to loosen other boulders and roll them into the circle, and with our knives and hatchets we cut off limbs and cut down small trees and used them for chinking. We got the animals into a sort of gully below us and made their position as safe as possible, and when daylight came there was nothing more to be done. We had above 600 rounds of ammunition and could reckon on it lasting us at least three days, and we had food for the same time and an unlimited supply of water.

Daybreak found us ready for an attack. The colonel's wife took her place between two men, rifle in hand, and for half an hour we expected a sudden rush. At the end of that time a single warrior appeared to view and in broken English demanded our surrender. The sergeant answered defiantly, and three minutes later there was an unbroken circle of fire about us. Indians had mounted into the trees to the right and left of us to get a plunging fire, and from the crests of the lower hills they poured in their bullets at random.

At the end of an hour they ceased firing. Not a man of us had been touched, but stray bullets had killed one of the mules and wounded two horses. We looked for a rush now, and as we made ready for it the colonel's wife quietly sank down beside me and said:

"I've tumbled over sage hens and jack rabbits, and I ought to be able to hit an Indian. Do I look frightened?"

"You are as white as a ghost, ma'am," I replied as I turned to her. "But I am all right," she smilingly said, "and here they come!"

So they did. With every painted warrior yelling at the top of his voice the entire band charged us at once, taking in the whole circle. It was not until they got close up that we could see anything to shoot at, and every few seconds the sergeant cried out to us to hold our fire. It was over in five minutes. They had not expected to find us so strongly entrenched, and we knocked them over like ninespins.

I believe we killed or wounded a full score, and it took the fight out of them so thoroughly that not a rifle was fired again until afternoon. In this charge I was sure that the colonel's wife killed one warrior and wounded another.

Soon after 2 o'clock, and without the slightest warning, we were charged again, and for ten minutes it was a wild melee. We fired into their very faces as they sprang upon the rocks, and of four warriors shot down outside the breastworks we had to give the colonel's wife credit for three. Even when the fight was at its wildest I was watching her, but with her Winchester at her eye she was taking aim and pulling trigger like a veteran of half a dozen battles. Her face was as white as that of a dead woman, but I do not believe she felt the least fear.

It was the red men's supreme and final effort, and it was well for us that it was so. When we had beaten them off the sergeant and another lay dead, four men were badly wounded, and they had cut our animals out of the gulch and run them off. Had the attack been renewed the savages would have gained a victory in no time.

It was when we knew that the Indians were drawing off that the brave little woman, who had certainly done her share of the fighting, suddenly burst into tears and fainted away, and it was a quarter of an hour before we knew that it was hysterics. Instead of a wound, she rallied after awhile, however, and it was her hands that bound up the hurts of the wounded and lovingly caressed the faces of those who had died defending her. We held our position the remainder of the day and through the night, and then, finding that the Indians had gone for good, we made our way back to the fort and restored the colonel's wife to his charge. Peace came again after a few months, and one day over 200 mounted Indians appeared in friendship, and their chief said to the colonel:

"We come in peace, and we come to see the woman who fought us on the hill by the two rivers. Bring her forth that we may touch her hands and look into her face and call her 'Woman of Battle.'"

RECEIVER SUES RECEIVER

Action Taken in the Savings Bank Case--A Suit For \$3,000 Insurance--Assignment of Cases In Common Pleas--Court House News.

George F. Webb, receiver of the Homestead Building and Savings company, has, by his attorneys, Kibler & Kibler, commenced suit in the common pleas court against Albert A. Stasel, receiver for the Newark Savings Bank company, for \$22,464.83.

The plaintiff claims that their is due him as receiver of the Homestead Building and Savings company from the Newark Savings Bank company the above sum. He says the amount showing the deposits of money by the Homestead Building and Savings company with the Newark Savings Bank company, is of great length, embracing hundreds of items.

The plaintiff claims that on or about the 24th day of August, 1904, he presented to A. A. Stasel, receiver of the Newark Savings Bank company, a sworn statement of the claim of the Building and Savings company against the Savings Bank company for \$22,464.82, and requested him as such receiver, to allow the sum as a valid claim against the Savings Bank company, but that Stasel refused to allow the claim and rejected it in writing, signed by him.

The plaintiff, as such receiver, prays judgment that Stasel be ordered and required by the court to allow the claims with interest from May 20, 1904, and that he pay the same in course of administration of the estate and property and assets of the savings bank in his possession and under his control, as receiver, by law.

Suit For Insurance. Olive E. Wells, by her attorney, John J. Adams, has commenced suit against the Supreme Council of the Royal Arcanum, to recover \$3,000, the amount of a policy held by Thomas B. Holmes. The plaintiff is a half-sister of the deceased, and was his next of kin, being at the time of his death.

She says that he left no wife or children, or other relative than the plaintiff, his half-sister. She says that Jas. H. Richardson was not the uncle of Thomas B. Holmes, and was not related to him in any degree by consanguinity. The plaintiff therefore claims that there is due her on said benefit certificate the sum of \$3,000, which she claims with interest from the 14th day of January, 1904.
